- Relational Databases (SQL, PL/SQL, SQL Server, MySQL, Oracle)
- Design (UML)
- Version Control (GIT, SVN ..)
- Web Development (Spring boot, Angular, ASP.NET, Symphony)
- ECM (ALFRESCO)
- DevOps (JUnit, Log4j, Sonar, Nexus, GIT, Jenkins, Docker)

EDUCATION

-2022 : National Engineering Degree in Computer Science from ESPRIT

-2019: admission to national entrance examination to engineering schools (Physics - Chemistry)

EXPERIENCE AND INTERSHIPS

AUGUST 2022 - PRESENT | JAVA DEVELOPER

- Design and Development of a Claims Management Platform.
 - Creation of Workflows.
 - Development of RestAPI for automating workflows and electronic document management.
- **ALFRESCO, ACTIVITI, JAVA, RHINOSCRIPT, GIT, JIRA**

FEBRUARY 2022 - AUGUST 2022 | JAVA DEVELOPER

- Final graduation internship at ADDINN Tunisia:
 - Design and Development of a Debt Recovery Platform.
 - Creation of Workflows. Development of RestAPI for automating workflows and electronic document management.
 - Integration of web interfaces and consumption of APIs.
- **ALFRESCO, ACTIVITI, POSTGRESQL, ANGULAR, GIT, JIRA ..**

AUGUST 2021 - SEPTEMBER 2021 | FULLSTACK .NET DEVELOPER

Technical Intern at OPTANS Monastir:

- Implementation of a data warehouse using the ETL tool and creation of a dashboard.
 - Design of the database.
 - Implementation of the data warehouse.
 - Creation of a dashboard to manipulate the data
- **ASP.NET , SQL SERVER, GIT, EntityFramework, Angular**

LANGUAGE

- Arabic
- French
- English

VOLUNTARY ACTIVITIES

- Member of IEEE ESPRIT Student Branch
- Head of a voting booth for the 2022 referendum at ISIE.

AUGUST 2020 - OCTOBER 2020 | ASP.NET DEVELOPER

Worker Internship at ERNST Mahdia:

- Setting up a "developer task tracking system".
 - Design of the database.
 - Integration of web design.
 - Development of basic features.

- **ASP.NET MVC, SQL SERVER, ADO.NET, GIT**

REF: <https://github.com/salim250/pointage>

ACADEMIC PROJECTS

GTK Desktop Application

- Travel Agency Management Application
 - Design of graphical interfaces.
 - Integration of interfaces.
 - Development of basic features.

- **GTK, GLADE, C , GIT**

REF: <https://github.com/salim250/project-C>

Spring Boot Web Application

- Web-based E-commerce Application.
 - Database design and creation.
 - Forum module implementation.
 - Development of the frontend component.

- **Spring Boot, Angular, MySql, GIT**

DEVOPS Project

- Implementation of DevOps Chain Links:
 - Logging and testing.
 - Code quality verification.
 - Deliverables repository management.
 - Source code management.
 - Continuous integration server.
 - Continuous delivery.
- **JUnit, Log4j, Sonar, Nexus, GIT, Jenkins, Docker**
